

INTERNATIONAL WEBINAR SERIES 23/24

Prof. Héctor Valdés
UCSC - Chile

Dr Debora Serra
EUFIC - Belgium

Dr Kamram Naim
CERN, Switzerland

Dr Jordana Bell
KCL, UK

Dr Narciso M. Quijada
USAL, Spain

Prof. Carlos R. Gonzalez
UAQ, Mexico

Dr Etienne Bucher
Agroscope, Switzerland

Prof. Sean Gibbons
ISB, USA

Prof. Paul D. Cotter
Teagasc, Ireland

Prof. Henrich M. Roager
KU, Denmark

Dr Gea Guerriero
LIST, Luxembourg

Prof. Vito Verardo
UGR, Spain

Prof. Massimo Iorizzo
NCSU, USA

Dr Elvira Domingo
EIT Food, Spain

Dr Manolo Laiola
DANONE, France

Prof. Vibeke Orlieen
KU, Denmark

Prof. Monserrat E. García
UAQ, Mexico

All webinars will take place on
MS TEAMS platform
- code: 6fu1p80

For more details, please visit

PhD students earn 1 CFU
attending 4 webinars

INTERNATIONAL WEBINAR SERIES 23/24

2023 |

- October, 26th
h 3:30 pm **Prof. Héctor Valdés** | Universidad Católica de la Santísima Concepción, Chile
Photocatalytic degradation of ethylene using transition metal modified natural zeolite

- November, 23rd
h 3:30 pm **Dr Debora Serra** | European Food Innovation Council (EUFIC), Belgium
EUFIC: experiences of science communication and dissemination

- December, 15th
h 3:30 pm **Dr Kamram Naim** | Head of Open Science Section, CERN, Switzerland
Open Science and Open Access

- January, 26th
h 3:00 pm **Dr Jordana Bell** | King's College London, United Kingdom
Epigenomics and human nutrition

- February 8th
h 3:30 pm **Dr Narciso M. Quijada** | Marie-Curie fellow, University of Salamanca, Spain
I finished my PhD, but what can I do now? The Marie-Sklodowska Curie Actions

- February *
h 4:30 pm **Prof. Carlos Regalado Gonzalez** | Autonomous University of Queretaro, Mexico
Nanoencapsulation of bioactive compounds in foods

- March *
h 3:30 pm **Dr Etienne Bucher** | Agroscope, Switzerland
European Research Council (ERC) grants: how they work and my personal story

- March, 29th
h 3:30 pm **Prof. Sean Gibbons** | Institute for Systems Biology, Seattle, USA
The human microbiome and its potential contributions to precision healthcare

- April, 19th
h 3:30 pm **Prof. Paul D. Cotter** | Teagasc Food Research Centre, Ireland
Fermented foods, microbiome and health

- May, 31st
h 3:30 pm **Prof. Henrich Munch Roager** | University of Copenhagen, Denmark
Human diet-microbiome interactions

- June *
h 3:30 pm **Dr Gea Guerrero** | Luxembourg Institute of Science and Technology, Luxembourg
Production of specialized metabolites synthesized by plants and plant cell cultures

- June *
h 3:30 pm **Prof. Vito Verardo** | Universidad de Granada, Spain
NoN-thermal technologies to recovery of bioactive compounds from agro-food residues

- July *
h 3:30 pm **Prof. Massimo Iorizzo** | North Carolina State University, USA
Exploring fruit/vegetable nutrigenomic properties to improve health outcomes

- September *
h 3:30 pm **Dr Elvira Domingo** | EIT Food
EIT Food Mission and Opportunities

- September *
h 3:30 pm **Dr Manolo Laiola** | DANONE Global Research & Innovation Center, France
Probiotics, gut microbiome and health

- October *
h 3:30 pm **Prof. Vibeke Orlien** | University of Copenhagen, Denmark
High pressure processing for structure modification of food proteins

- November *
h 4:30 pm **Prof. Monserrat Escamilla García** | Autonomous University of Queretaro, Mexico
Smart packaging elaboration by natural pigments addition
