

INTERNATIONAL WEBINAR SERIES 23/24

Prof. Héctor Valdés
UCSC - Chile

Dr Debora Serra
EUFIC - Belgium

Dr Kamram Naim
CERN, Switzerland

Dr Jordana Bell
KCL, UK

Dr Narciso M. Quijada
USAL, Spain

Prof. Carlos R. Gonzalez
UAQ, Mexico

Dr Etienne Bucher
Agroscope, Switzerland

Prof. Sean Gibbons
ISB, USA

Prof. Paul D. Cotter
Teagasc, Ireland

Prof. Henrich M. Roager
KU, Denmark

Dr Gea Guerriero
LIST, Luxembourg

Prof. Vito Verardo
UGR, Spain

Prof. Massimo Iorizzo
NCSU, USA

Dr Elvira Domingo
EIT Food, Spain

Dr Manolo Laiola
DANONE, France

Prof. Vibeke Orlén
KU, Denmark

Dr Elisabeth Bik
USA

Prof. Monserrat E. García
UAQ, Mexico

All webinars will take place on
MS TEAMS platform
- code: 6fu1p80
For more details, please visit

PhD students earn 1 CFU
attending 4 webinars

INTERNATIONAL WEBINAR SERIES 23/24

2023	October, 26th h 3:30 pm	Prof. Héctor Valdés Universidad Católica de la Santísima Concepción, Chile <i>Photocatalytic degradation of ethylene using transition metal modified natural zeolite</i>
	November, 23rd h 3:30 pm	Dr Debora Serra European Food Innovation Council (EUFIC), Belgium <i>EUFIC: experiences of science communication and dissemination</i>
	December, 15th h 3:30 pm	Dr Kamram Naim Head of Open Science Section, CERN, Switzerland <i>Open Science and Open Access</i>
2024	January, 26th h 3:00 pm	Dr Jordana Bell King's College London, United Kingdom <i>Epigenomics and human nutrition</i>
	February, 8th h 3:30 pm	Dr Narciso M. Quijada Marie-Curie fellow, University of Salamanca, Spain <i>I finished my PhD, but what can I do now? The Marie-Sklodowska Curie Actions</i>
	February, 22nd h 4:30 pm	Prof. Carlos Regalado Gonzalez Autonomous University of Queretaro, Mexico <i>Nanoincapsulation of bioactive compounds in foods</i>
	March, 7th h 3:30 pm	Dr Etienne Bucher Agroscope, Switzerland <i>European Research Council (ERC) grants: how they work and my personal story</i>
	March, 29th h 3:30 pm	Prof. Sean Gibbons Institute for Systems Biology, Seattle, USA <i>The human microbiome and its potential contributions to precision healthcare</i>
	April, 19th h 3:30 pm	Prof. Paul D. Cotter Teagasc Food Research Centre, Ireland <i>Fermented foods, microbiome and health</i>
	May, 16th h 3:30 pm	Dr Manolo Laiola DANONE Global Research & Innovation Center, France <i>Probiotics, gut microbiome and health</i>
	May, 31st h 3:30 pm	Prof. Henrich Munch Roager University of Copenhagen, Denmark <i>Human diet-microbiome interactions</i>
	June * h 3:30 pm	Dr Gea Guerriero Luxembourg Institute of Science and Technology, Luxembourg <i>Production of specialized metabolites synthesized by plants and plant cell cultures</i>
	June * h 3:30 pm	Prof. Vito Verardo Universidad de Granada, Spain <i>NoN-thermal technologies to recovery of bioactive compounds from agro-food residues</i>
	July * h 3:30 pm	Prof. Massimo Iorizzo North Carolina State University, USA <i>Exploring fruit/vegetable nutrigenomic properties to improve health outcomes</i>
	September 27th h 3:30 pm	Dr Elvira Domingo EIT Food <i>EIT Food Mission and Opportunities</i>
	October * h 3:30 pm	Prof. Vibeke Orlien University of Copenhagen, Denmark <i>High pressure processing for structure modification of food proteins</i>
	October 18th h 4:30 pm	Dr Elisabeth Bik Harbers Bik LLC, USA <i>Errors and misconduct in biomedical research</i>
	November * h 4:30 pm	Prof. Monserrat Escamilla García Autonomous University of Queretaro, Mexico <i>Smart packaging elaboration by natural pigments addition</i>
